### **OBJECTIVES**

At the completion of this activity, the participants should better be able to:

1. Identify the connection between determinants of health and adherence to a CV treatment plan.
2. Outline the need for a redesign of the health care delivery with the model of the patient as a partner in improving CV health outcomes.
3. Recognize the importance of integrating the components of cultural awareness, health literacy, humanism and preferred language into the treatment plan for the patient with CV disease.
4. Discuss A Framework for DEI: Northwell Health's approach to diversity and health equity.
