

Creating a world without heart and vascular disease

Minneapolis Heart Institute Foundation Cardiovascular Grand Rounds

Title: Applied AI in Echocardiology

Speaker(s): Ross Upton, PhD

Founder and CEO, Ultromics

Industry Deputy Chair, Heart Failure AMP, FNIH

Co-Chair, HeartShare AI Committee, NIH

Date: January 29, 2024

Time: 7:00 – 8:00 AM

Location: Minneapolis Heart Institute Building, Suite 100, MHIF Learning Center

Webinar – visit www.mplsheart.org/grandrounds for login information

OVERVIEW/PURPOSE STATEMENT

MHIF Cardiovascular Grand Rounds provides physicians and other health care providers the opportunity to review and discuss the latest developments in cardiovascular care.

OVERALL OBJECTIVES

At the completion of this activity, the participants should better be able to:

1. Identify commonly misdiagnosed disease with effective interventions (e.g., HFpEF and Cardiac Amyloidosis)
2. Outline how to leverage large datasets and patient outcomes to build diagnostic AI models
3. Describe how to test these models in the real works using independent datasets, reader studies and RCTs

NON-ENDORSEMENT OF COMMERCIAL PRODUCTS AND/OR SERVICES

We would like to thank the following company for exhibiting at our activity.

AstraZeneca

Bristol Myers Squibb

Support of this activity does not imply endorsement by Allina Health/MHIF of any commercial products displayed in conjunction with an activity. A reminder for Allina employees and staff, the Allina Policy on Ethical Relationship with Industry prohibits taking back to your place of work, any items received at this activity with branded and or product information from our exhibitors.
