OVERVIEW/PURPOSE STATEMENT

MHIF Cardiovascular Grand Rounds provides physicians and other health care providers the opportunity to review and discuss the latest developments in cardiovascular care.

OVERALL OBJECTIVES

At the completion of this activity, the participants should better be able to:

1. Describe how Cardiac MRI is currently utilized for the accurate diagnosis and characterization of hypertrophic cardiomyopathy (HCM)
2. Discuss how Cardiac MRI can be used to identify high-risk features, such as myocardial fibrosis, that are critical for guiding decisions related to implantable cardioverter-defibrillator (ICD) placement
3. Explore key imaging biomarkers that can help distinguish hypertrophic cardiomyopathy from other conditions such as athlete's heart or hypertensive heart disease
