

Enrolling Interventional Studies

‣ **RADIANCE HTN - PI: Yale Wang, MD**

- Patients with essential hypertension being treated ≤ 2 antihypertensive medications; treatment resistant hypertension being treated with 3 antihypertensive medications
- Study product: ReCor Medical Paradise System (Renal Denervation)
- 1° Endpoint: feasibility, safety, and efficacy of autologous MSCs and CSCs, alone or in combination
- Contact: Rose Peterson, RN, CCRC phone 612.863.6051 pager 612.654.1650

‣ **COBRA REDUCE - PI: Daniel Lips, MD**

- Patients on coumadin or non-vitamin K oral anticoagulants with ischemic symptoms (stable or unstable) with up to 2 lesions in one or more vessels.
- Study product: COBRA PzF stents with 14 days of DAPT after stenting provide –vs- DES of choice
- 1° Endpoint: safety and feasibility of allo-MSCs
- Contact: Rose Peterson, RN, CCRC phone 612.863.6051 pager 612.654.1650

‣ **EVOLVE Short DAPT – PI: Ivan Chavez, MD**

- Subjects at high risk for bleeding undergoing PCI where 3 mth DAPT
- Study product: Synergy Stent
- 1° Endpoint: The rate of recurrent events of HF readmissions during follow-up period.
- Contacts: Rose Peterson, RN, CCRC phone 612.863.6051 pager 612.654.1650

CARDIOLOGY GRAND ROUNDS

Title: Myocardial infarction and myocardial injury: Where are we now?

Speaker: Yader Sandoval, MD,
Interventional Cardiology Fellow
Minneapolis Heart Institute® at Abbott Northwestern Hospital &
Hennepin County Medical Center

Date: Monday, May 22, 2017

Time: 7:00 – 8:00 AM

Location: ANW Education Building, Watson Room

OBJECTIVES

At the completion of this activity, the participants should be able to:

1. Recognize the contemporary classification/nomenclature of myocardial infarction and myocardial injury.
2. Embrace novel rule-in and rule-out diagnostic pathways for patients with myocardial infarction and myocardial injury.
3. Recall the diagnosis and implications of type 2 myocardial infarction.

ACCREDITATION

Physician

Allina Health is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Allina Health designates this live activity for a maximum of 1.0 *AMA PRA Category 1 Credit(s)*TM. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Nurse

This activity has been designed to meet the Minnesota Board of Nursing continuing education requirements for 1.2 hours of credit. However, the nurse is responsible for determining whether this activity meets the requirements for acceptable continuing education.

DISCLOSURE STATEMENTS

Moderator(s)/Speaker(s)

Dr. Sandoval has disclosed that he does not have any conflicts of interest in making this presentation.

Planning Committee

Dr. Alex Campbell, Dr. Kevin Harris, Rebecca Lindberg, Dr. Michael Miedema, Dr. JoEllyn Carol Moore, Dr. Scott Sharkey, and Jolene Bell Makowsky have declared that they do not have any conflicts of interest associated with the planning of this activity. Dr. David Hurrell declares the following relationship –Boston Scientific: Chair, Clinical Events Committee.

We gratefully acknowledge the following organizations for their financial contributions for this activity:

AstraZeneca

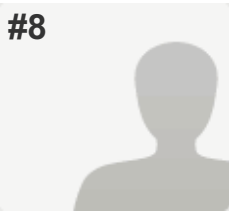

Pfizer

PLEASE SAVE A COPY OF THIS FLIER AS YOUR CERTIFICATE OF ATTENDANCE

Signature: _____

My signature verifies that I have attended the above stated number of hours of the CME activity.

Q5: Assistant's Contact Information

Respondent skipped this question

Q6: Your Biography (~500 words) A bio or CV, resume is required to support your qualifications to present at a CME accredited educational activity.

Yader Sandoval, MD is an Interventional Cardiology Fellow at the Minneapolis Heart Institute, Abbott Northwestern Hospital and Hennepin County Medical Center. He received his medical degree at the Escuela Autónoma de Ciencias Médicas de Centro America in San José, Costa Rica. He trained in Internal Medicine at Hennepin County Medical Center, where due to his commitment to teaching and clinical work he was selected by his residency peers for the Morris Davidman Teaching Award for outstanding teaching and patient care. He completed his Cardiology Fellowship at Hennepin County Medical Center and the Minneapolis Heart Institute, Abbott Northwestern Hospital where he was a Chief Cardiology Fellow. He is an investigator at the Cardiac Biomarker Trials Laboratory, Minneapolis Medical Research Foundation where his research has been focused on the use of cardiac troponin assays and his work resulted in numerous publications in high-impact peer-reviewed journals and presentations at national meetings. He has an expertise related to the to the clinical use and laboratory/analytical aspects of cardiac troponin assays to characterize the pathobiology of acute myocardial infarction and cardiac injury. Because of this work, he was recognized as a Young Investigator Award Finalist by the American College of Cardiology at the 2016 Scientific Sessions. Dr. Sandoval has authored over 40 peer-reviewed manuscripts and 50 national/regional abstracts including notable publications in the Journal of the American College of Cardiology and The Lancet. In addition to his work with cardiac biomarkers and acute myocardial infarction, he has numerous other investigations in the field of perioperative myocardial ischemia, coronary artery disease, and percutaneous coronary revascularization.

PAGE 2: Presentation Information

Q7: Presentation Title

Myocardial infarction and myocardial injury: Where are we now?

Q8: To comply with ACCME recommendations, three learning objectives are required for your session. Use action verbs (e.g. list, describe, define, demonstrate, etc.) to complete the following statement. Select this link for action verb suggestions. At the completion of this activity, the participants should be able to:

Objective 1: Understand the contemporary classification/nomenclature of myocardial infarction and myocardial injury

Objective 2: Embrace novel rule-in and rule-out diagnostic pathways for patients with myocardial infarction and myocardial injury

Objective 3: Understand the diagnosis and implications of type 2 myocardial infarction

Q9: The meeting room is supplied with a built-in computer that is connected to the facility sound system. Your Grand Rounds presentation is webcast to participating Allina facilities and made available post-session for medical professional viewing. To assure these facilities receive transmission, please confirm that you will use the conference supplied computer.

Yes, I will use the conference supplied computer.

PAGE 3: Disclosure

Q10: Select one of the following statements:

NO - I or my spouse/partner have not had a personal financial relationship in the last 12 months with the manufacturer of the products or services that will be discussed in this activity/lecture.

Q11: Use of presentation for educational purposes:By entering my name below, I consent to the recording and release of my presentation in audio and PDF format on the MHI/MHIF website (mplsheart.org). PDFs will be secured, so that copying of text, images and other content will be disabled. Faculty members retain all rights to their presentation materials.

Yader Sandoval

Q12: DECLARATION: I will uphold Allina Health's continuing education standards to ensure balance, independence, objectivity, and scientific rigor in my role in the planning, development or presentation of this activity. I understand that continuing education accreditation guidelines prohibit me from accepting any reimbursement (financial, gifts, or in-kind exchange) for this presentation from any source other than the accredited provider or its educational partner (or fiscal agent). HIPAA: I will ensure any material I provide to the course or present at the course will be compliant with all HIPAA requirements. All content will be properly de-identified of patient health information. By typing my name, I attest that the completed information is accurate. Please accept this as my signature.
