In press

2018

Outcomes of Extracorporeal Membrane Oxygenation Support for Complex High-risk Elective Percutaneous Coronary Interventions: A Single-center Experience and Review of the Literature
Invasive Cardiology, December 2018

Intravascular imaging for chronic total occlusion intervention
Current Cardiovascular Imaging Reports, December 2018

Revascularization in "no option" patients with refractory angina: Frequency, etiology and outcomes
Sharma R, Tradewell M, Kohl LP, Garberich RF, Traverse JH, Poulouse A, Brilakis ES, Arndt T, Henry TD
Catheterization and Cardiovascular Interventions, December 2018

In-Hospital Outcomes of Chronic Total Occlusion Percutaneous Coronary Intervention in Patients with Chronic Kidney Disease
Journal of Invasive Cardiology, November 2018

Outcomes with drug-coated balloons for treating the side-branch of coronary bifurcation lesions
Megaly M, Rofael M, Saad M, Shishehbor M, Brilakis ES
Journal of Invasive Cardiology, November 2018
Impact of sleep deprivation on the outcomes of percutaneous coronary intervention
Catheterization and Cardiovascular Interventions, November 2018

Prevalence and Outcomes of Percutaneous Coronary Interventions for Ostial Chronic Total Occlusions: Insights from a Multicenter CTO Registry
Canadian Journal of Cardiology, October 2018

Expecting the unexpected: preventing and managing the consequences of coronary perforations
Expert Review of Cardiovascular Therapy, October 2018

Chronic total occlusions: update on current tips and tricks
Tajti P, Xenogiannis I, Karmpaliotis D, Alaswad K, Jaffer FA, Burke MN, Ungi I, Brilakis ES
Current Cardiology Reports, October 2018

Meta-analysis of the Impact of Successful Chronic Total Occlusion Percutaneous Coronary Intervention on Left Ventricular Systolic Function and reverse remodeling
Journal of Interventional Cardiology, October 2018

Shields and garb for decreasing radiation exposure in the cath lab
Karatasakis A, Brilakis ES. Expert Review of Medical Devices, September 2018

An algorithmic approach for the management of ostial right coronary artery chronic total occlusions
Avran A, Boukhris M, Drogoul L, Brilakis ES
Catheterization and Cardiovascular Interventions, September 2018

Subadventitial techniques for chronic total occlusion percutaneous coronary intervention: The concept of "vessel architecture"
Azzalini L, Carlino M, Brilakis ES, Vo M, Rinfret S, Uretsky BF, Karmpaliotis D, Colombo A
Catheterization and Cardiovascular Interventions, September 2018
Bivalirudin versus unfractionated heparin in peripheral vascular interventions
Cardiovascular Revascularization Medicine, September 2018

Percutaneous treatment of acutely occluded right coronary artery after reimplantation in the aortic root
Tajti P, Brilakis ES
Hellenic Journal of Cardiology, September 2018

In-hospital Outcomes of Attempting More Than One Chronic Total Coronary Occlusion Via Percutaneous Intervention During the Same Procedure
American Journal of Cardiology, August 2018

Radiation Safety in the Catheterization Laboratory: Current Perspectives and Practices
Journal of Invasive Cardiology, August 2018

Management of a Balloon Shaft Fracture During Subintimal Retrograde Chronic Total Occlusion Percutaneous Coronary Intervention Due to In-stent Restenosis
Karacsonyi J, Sasi V, Ungi I, Brilakis ES
Journal of Invasive Cardiology, August 2018

Adjunctive stent use during endovascular intervention to the femoropopliteal artery with drug coated balloons: Insights from the XLPAD registry
Kokkinidis DG, Jeon-Slaughter H, Khalili H, Brilakis ES, Shammas NW, Banerjee S, Armstrong EJ
Vascular Medicine, August 2018

The Hybrid Approach to Chronic Total Occlusion Percutaneous Coronary Intervention: Update From the PROGRESS CTO Registry
Prevalence, trends, and outcomes of higher risk percutaneous coronary interventions among patients without acute coronary syndromes

Contemporary use of laser during percutaneous coronary interventions: insights from the laser veterans affairs (LAVA) multicenter registry

Drug-Eluting Stents for Treatment of Peripheral Artery Disease

Drug-eluting stents versus bare-metal stents for saphenous vein graft revascularisation: A meta-analysis of randomised trials
Elgendy IY, Mahmoud AN, Brilakis ES, Bavry AA EuroIntervention, June 2018

Drug Eluting Stents vs. Bare Metal Stents in Saphenous Vein Grafts: a Randomised, Double-Blind, Trial

Aminophylline for preventing bradyarrhythmias during orbital or rotational atherectomy of the right coronary artery
Megaly M, Sandoval Y, Lillyblad MP, Brilakis ES Journal of Invasive Cardiology, May 2018

Overview and proposed terminology for the reverse controlled antegrade and retrograde tracking (reverse CART) techniques
The “Double Stingray” technique for recanalizing chronic total occlusions with bifurcation at the distal cap
Tajti P, Doshi D, Karmpaliotis D, Brilakis ES
Catheterization and Cardiovascular Interventions, May 2018

Update in the Percutaneous Management of Coronary Chronic Total Occlusions
JACC Cardiovasc Interventions, April 2018

The Presence of a CTO in a Non-Infarct-Related Artery During a STEMI Treated With Contemporary Primary PCI Is Associated With Increased Rates of Early and Late Cardiovascular Morbidity and Mortality: The CTO-TOTAL Substudy

Sleep deprivation in interventional cardiology: implications for patient care and physician health
Catheterization and Cardiovascular Interventions, April 2018

Iso-osmolar contrast media and adverse renal and cardiac events after percutaneous cardiovascular intervention
McCullough PA, David G, Todoran TM, Brilakis ES, Ryan MP, Gunnarsson C
Journal of Comparative Effectiveness Research, April 2018

The effect of major adverse renal cardiovascular event (MARCE) incidence, procedure volume, and unit cost on the hospital savings resulting from contrast media use in inpatient angioplasty
Keuffel E, McCullough PA, Todoran TM, Brilakis ES, Palli SR, Ryan MP, Gunnarsson C
Journal of Medical Economics, April 2018

Innovations in radiation safety during cardiovascular catheterization
Brilakis ES
Circulation, March 2018
Mechanical circulatory support in chronic total occlusion percutaneous coronary intervention: insights from a multicenter US registry
Journal of Invasive Cardiology, March 2018

Radiation-associated lens changes in the cardiac catheterization laboratory: results from the IC-CATARACT (CATaracts Attributed to Radiation in the CaTh Lab) study
Catheterization and Cardiovascular Interventions, March 2018

Diverse perspectives and training paths in cardiology: an analysis of authorship in the Journal of the American College of Cardiology
Hellenic Journal of Cardiology, March 2018

Subadventitial stenting around occluded stents: A bailout technique to recanalize in-stent chronic total occlusions
Catheterization and Cardiovascular Interventions, March 2018

Prevalence, presentation and treatment of “balloon undilatable” chronic total occlusions: insights from a multicenter US registry
Catheterization and Cardiovascular Interventions, March 2018

Influence of operator experience and PCI volume on transfemoral access techniques: A collaboration of international cardiovascular societies
Cardiovascular Revascularization Medicine, March 2018
Virtual Resting Pd/Pa From Coronary Angiography and Blood Flow Modelling: Diagnostic Performance Against Fractional Flow Reserve
Papafaklis MI, Muramatsu T, Ishibashi Y, Bourantas CV, Fotiadis DI, Brilakis ES, Garcia-Garcia HM, Escaned J, Serruys PW, Michalis LK
Heart, Lung & Circulation, March 2018

Long-Term Outcomes of Percutaneous Coronary Intervention for Chronic Total Occlusion in Patients Who Have Undergone Coronary Artery Bypass Grafting vs Those Who Have Not
Canadian Journal of Cardiology, March 2018

Influence of operator experience and PCI volume on transfemoral access techniques: A collaboration of international cardiovascular societies
Cardiovascular Revascularization Medicine, March 2018

Retrograde CTO-PCI of Native Coronary Arteries Via Left Internal Mammary Artery Grafts: Insights From a Multicenter U.S. Registry
Journal of Invasive Cardiology, March 2018

Randomized Comparison of a CrossBoss First vs. Standard Wire Escalation Strategy for Crossing Coronary Chronic Total Occlusions: the “CrossBoss First” trial
JACC Cardiovascular Interventions, February 2018
Mid-term outcomes of chronic total occlusion percutaneous coronary intervention with subadventitial vs. intraplaque crossing: A systematic review and meta-analysis
International Journal of Cardiology, February 2018

Current Perspectives and Practices on Chronic Total Occlusion Percutaneous Coronary Interventions
Journal of Invasive Cardiology, February 2018

Comparative assessment of patient outcomes with intraluminal or subintimal crossing of infrainguinal peripheral artery chronic total occlusions
Vascular Medicine, February 2018

Chronic Total Occlusion Percutaneous Coronary Intervention: Evidence and Controversies
Tajti P, Brilakis ES
Journal of the American Heart Association, January 2018

Novel use of cutting balloon to treat subintimal hematomas during chronic total occlusion interventions
Vo MN, Brilakis ES, Grantham JA
Catheterization and Cardiovascular Interventions, January 2018

"Around the World" - How to Reach Native Coronary Artery Lesions through Long and Tortuous Aortocoronary Bypass Grafts
Tajti P, Sandoval Y, Brilakis ES
Hellenic Journal of Cardiology, January 2018

Lost and found: Coronary stent retrieval and review of literature
Malik SA, Brilakis ES, Pompili V, Chatzizisis YS
Catheterization and Cardiovascular Interventions, January 2018

Performance of J-CTO and PROGRESS CTO Scores in Predicting Angiographic Success and Long-term Outcomes of Percutaneous Coronary Interventions for Chronic Total Occlusions
Forouzandeh F, Suh J, Stahl E, Ko YA, Lee S, Joshi U, Sabharwal N, Almuwaqqat Z, Gandhi
American Journal of Cardiology, January 2018
