OVERVIEW/PURPOSE STATEMENT: MHIF Grand Rounds brings together physicians, advanced practice providers, nurses, care teams and research staff to share ideas and stay informed of the latest advances and best practices in cardiovascular medicine and patient care.

OBJECTIVES
At the completion of this activity, the participants should be able to:
1. Discuss the shortfalls of how modern healthcare overlooks human factors and performance science as a foundation for clinician flourishing.
2. List the roles of biomarkers and both objective + subjective data driving a clearer understanding of clinician self-awareness for higher performance.
3. Discuss how data-driven performance programs that mirror other high-pressure fields (Navy SEALs, Olympic athletes, creatives) can elevate team culture in cardiac care.
